Oath/Declaration

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-23, 33-50, 53-57, 67, and 69-85 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

3. It is noted that applicant has requested that the requirement for new Declarations be deferred until claim language is finalized and since now all pending claims are considered to be allowable, a New Declaration is now required.

4. This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

Art Unit: 3728

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

5. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

6. Also, it is requested that applicant file a certification under 37 CFR 3.73 (b) which is required, rule 3.73 (b) states:

(b)

(1) In order to request or take action in a patent or trademark matter, the assignee must establish its ownership of the patent or trademark property of paragraph (a) of this section to the satisfaction of the Director. The establishment of ownership by the assignee may be combined with the paper that requests or takes the action. Ownership is established by submitting to the Office a signed statement identifying the assignee, accompanied by either:

(i) Documentary evidence of a chain of title from the original owner to the assignee (e.g., copy of an executed assignment). The documents submitted to establish ownership may be required to be recorded pursuant to § 3.11 in the assignment records of the Office as a condition to permitting the assignee to take action in a matter pending before the Office; or

(ii) A statement specifying where documentary evidence of a chain of title from the original owner to the assignee is recorded in the assignment

Art Unit: 3728

records of the Office (e.g., reel and frame number).

(2) The submission establishing ownership must show that the person signing the submission is a person authorized to act on behalf of the assignee by:

(i) Including a statement that the person signing the submission is authorized to act on behalf of the assignee; or

(ii) Being signed by a person having apparent authority to sign on behalf of the assignee, e.g., an officer of the assignee.

Allowable Subject Matter

7. Claims 1-23, 33-50, 53-57, 67, and 69-85 are allowed.

8. Applicant is required in response to this office action to file a new amendment which files the cancels the allowed claims 33-50, 53-57, 67, and 69-85 and refiles the claims as new claims numbered 86-?, underlining all of the claims, and without any parenthetical annotation. Doing such will clarify the exact claims to be printed and which have been allowed and ensure that the correct claims are printed. Applicants' assistance with such is greatly appreciated.

Conclusion

9. This application is in condition for allowance except for the following formal matters:

See above required new declaration, 3.73 certification, assent by assignee, surrender of original Patent, and a new amendment as pointed out in paragraph 8 above.

Art Unit: 3728

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
